DECLARATION

Re: Patent Application in USA
for "Liquid Crystal Display"

Serial No. 09/485,168
in the name of P. Lazarev et al

RECEIVED
OCT 11 2000
TECHNICAL CENTER 1700

RECEIVED

1. I, Carl C. Cobb, President and Chief Executive Officer for Optiva, Inc. at 377 Oyster Point Blvd, Unit 13, South San Francisco, CA 94080, USA, do hereby declare that we filed a U.S. Patent Application Serial No. 09/485,168 (based on PCT/RU98/00250 filed August 3, 1998) for the invention entitled "Liquid Crystal Display" in the name of Pavel Ivanovich LAZAREV; Sergei Vasilievich BELYAEV; and Yuri Alexandrovich BOBROV.
2. We prepared Declaration of the inventors signed by Pavel Ivanovich LAZAREV and Yuri Alexandrovich BOBROV. Signature of Sergei Vasilievich BELYAEV was missing as he was not working for the subcontracting Moscow company ZAO "Quanta Invest" anymore.
3. We prepared and on March 6, 2000 we mailed a letter to Sergei Vasilievich BELYAEV (Exhibit 1) with our request to sign the attached documents for the filing of the above mentioned Patent Application to U.S. Patent Office. We enclosed an Assignment of Invention, Declaration and Power of Attorney to be signed by Sergei Vasilievich BELYAEV, and also a copy of PCT Application (PCT/RU98/00250) as it was filed to U.S. Patent Office.
4. In response to our letter we received an email message from Sergei Vasilievich BELYAEV (Exhibit 2) on March 23, 2000.
5. On March 27, 2000 we prepared and mailed another letter to Sergei Vasilievich BELYAEV (Exhibit 3). Enclosed were an Assignment of Invention, Declaration and Power of Attorney to be signed by Sergei Vasilievich BELYAEV, and a copy of PCT Application (PCT/RU98/00250) as it was filed to U.S. Patent Office – as from the email message we received on March 23, 2000 it was not obvious that an Assignment of Invention, Declaration and Power of Attorney to be signed by Sergei Vasilievich BELYAEV, and a copy of PCT Application (PCT/RU98/00250) was received with our previous package addressed to him.
6. On April 3, 2000 we received an email message from Sergei Vasilievich BELYAEV which is attached as Exhibit 4.
7. On May 9, 2000 we prepared and mailed a letter to Sergei Vasilievich BELYAEV with set of documents enclosed which are relevant to the filing of the U.S. Patent Application Serial No. 09/485,168 (Exhibit 5). It contained the previous correspondence with Sergei Vasilievich BELYAEV with confirmation of receipt; the signed Assignment Deed together with its English translation which states that on August 04, 1997 all the inventors had assigned all their rights for the invention in question to the ZAO "Quanta Invest", the assignee of the priority patent in Russia; and the Assignment Deed signed by ZAO "Quanta Invest" which states the assignment of all rights to the invention in question to OPTIVA, Inc. All above listed documents which were attached to our letter dated May 9, 2000 are attached as Exhibits to the Declaration of Gorodissky & Partners.
8. In response to our letter of May 9, 2000 we received an email message from Sergei Vasilievich BELYAEV (Exhibit 6) on May 28, 2000.

OPTIVA, INC.

South San Francisco, CA 94080
tel. 650-616-7600
fax. 650-616-7602
www.optivainc.com

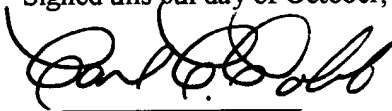

9. On June 19, 2000 we prepared and mailed a letter to Sergei Vasilievich BELYAEV. A copy and delivery confirmation receipts of July 15, 2000 are attached as Exhibit 7.
10. To the best of my knowledge there was no other response, and there was no other correspondence or contact with by Sergei Vasilievich BELYAEV or any of his representatives.
11. To the best of my knowledge here is the last known address of Sergei Vasilievich BELYAEV

Dr. Sergei V. BELYAEV
Russia, 141700, Moscow region,
Dolgoprudny, prospect Patsaeva, d.14, kv.77

It is requested hereby that the above patent application and the accompanying documents be accepted without the original signature of Sergei Vasilievich BELYAEV on the Declaration and Power of Attorney.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application of any patent issued thereon.

Signed this 6th day of October, of the year two thousand

Carl C. Cobb
President and CEO
Optiva, Inc.

Enclosures:

1. Letter from to Mr. BELYAEV of March 6, 2000 (Exhibit 1)
2. E-mail message from Mr. BELYAEV of March 23, 2000 (Exhibit 2)

Re: U.S. Patent Application entitled "Liquid Crystal Display"
Priority Pat. Appl.: #97113277, priority date August 4, 1997, Russian Federation
PCT/ RU98/00250; WO 99/06884

Inventors: Belyaev, Sergei V., Bobrov, Yuri A., Lazarev, Pavel I.

Serial No.: to be assigned

Dear Dr. Belyaev:

Enclosed herewith is an Assignment of Invention, Declaration and Power of Attorney to be signed by the inventors for the above-identified patent application. Enclosed please find a copy of PCT Application entitled "Liquid Crystal Display" as it was filed to US Patent Office. Please note that PCT Application was erroneously filed under the name of one inventor only.

Please sign the Assignment of Invention, Declaration and Power of Attorney enclosed in presence of two witnesses and then mail it to Optiva Office at:

Optiva, Inc.
377 Oyster Point Blvd., Suite 13
South San Francisco, CA 94080, USA

or to our Moscow Office at:

Russia, 113455, Moscow
Post Box 24.
Attn: Ms. Inna Lozovskaya

Ms. Inna Lozovskaya could take care of these documents in Moscow and resend them to our Patent Attorney.

If you have any questions regarding this matter, please do not hesitate to contact me.

Sincerely yours,

Carr Cobb
President

Enclosures: - Assignment of Invention, Declaration and Power of Attorney
- a copy of the letter from International Patent Bureau
- a copy of PCT application and translation into English

PCT/ RU98/00250; WO 99/06884

Dear Dr. Belyaev

We received your correspondence dated March 23, 2000.

We would like to inform you that we have applied all efforts to correct the misprint that omitted your names in the above mentioned PCT applications as inventors. The mistake was made by the Russian Patent office clerk. This mistake lead to an erroneous publication of the list of inventors in PCT publication.

>From legal stand point it is an obvious misprint which is treated as such by Patent Offices in all countries of filing.

Materials that intended to clear this point are in the mail and we would appreciate your notification of reception in order to file it with our representing patent office in Russia. For the application of the above-mentioned patent applications to the national stage Optiva is represented by Gorodissky Patent Law Firm.

At the beginning of March we forwarded a set of documents to your attention by mail that probably did not reach you. We mail to you the same set of documents once more. It contains:

- Assignment of Invention, Declaration and Power of Attorney
- a copy of the letter from International Patent Bureau (that confirms the corrected PCT application)
- a copy of PCT application and translation into English

Please forward the copy of this letter to Mr. Nikolay Malimonenko and Mr. Alexandre Miroshin.

The notation of "USA only" refers ONLY to the difference in US Patent law, in which the applicant is considered to be the author(s) or the assignee of the author(s). This is for the purpose of US patent registration.

As your request, and as Optiva is already taking action to do, the correction of authorship error of the Russian patent office is for all countries.

Please, do not hesitate to call us if you would have any questions.

Best regards.

Carl Cobb

Re: Patent Application entitled "Liquid Crystal Display" Priority
Pat. Appl.: #97113277, priority date August 4, 1997, Russian Federation PCT/
RU98/00250; WO 99/06884

Dear Mr. Cobb:

Thank you for your e-mail of 30 March, 2000. I apologize for an error at your name writing in my e-mail of 23 March, 2000 – Fax received by me was very unclear.

We appreciate Optiva attempts to correct the mistakes with our authorship for discussed PCT applications with respect to all indicated countries.

We can not consider the conditions proposed by Optiva for Assignment of Invention ("One US dollar") as obvious for us, because Optiva did not fulfilled the conditions promised for us by Mr.P.Lazarev when we joint with Optiva (it was the reason we have preferred to leave Optiva). No agreements were signed between us and Optiva during our work at Optiva, especially agreements for patents generated by us. For these reasons we would like to discuss with you the realistic conditions for our rights transfer to Optiva.

Two options could be considered.

1) We could sign improved Assignments of Inventions and other needed documents if Optiva agrees with the share as 10% of ownership for each of three inventors (Belyaev, Malimonenko, Miroshin) for "Dichroic Polarizer" (total 30% of ownership) and the share 15% of ownership for Belyaev for "Liquid Crystal Display".

2) We could sign the Assignments of Inventions and other needed documents if Optiva pays US \$ 10,000 for each of three inventors (Belyaev, Malimonenko, Miroshin) for "Dichroic Polarizer" and US \$ 10,000 for Belyaev for "Liquid Crystal Display".

Please, do not hesitate to inform us if you have better proposals.

Best regards.

On behalf of inventors Sergey Belyaev, Nicolay Malimonenko, Alexader Miroshin:

Re: US Patent Application entitled "Liquid Crystal Polarizer"

Your Reference: Gorodissky&Partners: 2412-P469-3.PM

In answer to your inquiry on the signed Declaration for the above-mentioned Patent application to the U.S. Patent Office, we are informing you that Declaration by now is signed by two Inventors – Yuri Bobrov and Pavel Lazarev.

We forward to you a copy of our Letter to each Inventor of this Application dated March 6, 2000. We have confirmation of receiving from the inventor Sergey Belyaev, dated March 31, 2000.

Optiva does not have a signed Declaration from Sergey Belyaev. Although we do not have the signed Declaration, we would like to ask you to communicate with the US Patent Attorney and inform him about this matter.

At the same time we have an Assignment, signed by inventors, which transfers all rights to the Company "Quanta Invest", the assignee of the priority patent application in Russia. We also enclose the Assignment Deed that assigns rights for the U.S. Patent application entitled "Liquid Crystal Polarizer" from "Quanta Invest" to "Optiva, Inc."

Enclosed please find the following documents:

- Optiva's letter addressed to Sergey Belyaev dated March 6, 2000 with confirmation of receipt;
- signed Assignment (a copy) by all inventors dated at August 04, 1997 that declares that all rights including world-wide patent applications are assigned to "Quanta Invest" (in Russian),
- English translation of the Assignment, and
- Assignment Deed signed by the assignor (Quanta Invest) and the assignee (Optiva, Inc.)

If we receive signed documents from Sergey Belyaev, we will forward it to you for filing with US Patent Office.

Thank you for your service.

Very truly yours,

Alla Sakharova, PhD
Project Manager

19 June, 2000

Dr. Sergei V. BELYAEV Russia, 141700, Moscow region,
Dolgoprudny, prospect Patsaeva, d.14, kv.77

Re: U.S. Patent Application entitled "Liquid Crystal Display"
Priority Pat. AppL: #97113277, priority date August 4,
1997, Russian Federation PCT/ RU98/00250; WO 99/06884
Inventors: Belyaev, Sergei V., Bobrov, Yuri A., Lazarev, Pavel I.

Dear Dr. Belyaev,

We received your correspondence dated May 28, 2000.

As I noted in my previous message, Optiva has applied all efforts to correct the misprint that omitted your names as inventors in the above mentioned PCT applications. The PCT publication is published based on this erroneous information, and it is now being fixed in the published text now. The Internet copy you are referring to is based on the published notice.

The main purpose for the PCT application is not publication itself. This structure was created to protect your rights for your intellectual property under national Patent laws. As we had already informed you before, all actions to correct these errors in national patent applications have been taken care of, and we are receiving responses from the national Patent Offices with confirmations of the fixed errors. So, for each country, the complete set of inventors has been filed.

I believe that you have an obvious misreading of the notation from the PCT Office response that the applicants are considered to be the authors in USA only. And hopefully, you realize now the legal situation with Inventors' names for patent applications based on the Russian priority patent application.

Regarding the filing of the above-mentioned application to the U.S. Patent Office, you are exactly right, and Optiva should send you all signed documents in the nearest future. That was the reason why several months ago you received Declaration and Assignment that was mailed to you by Optiva with a set of other documents relevant to this matter. Unfortunately, we have not yet received the signed forms from you.

OPTIVA, INC.

377 Oyster Point Boulevard, No. 13 South
San Francisco, CA 94080 tel. 650-616-7600

Optiva will file Declaration and Assignment with all signatures obtained at the time of the filing. We would appreciate if you would consider providing your signature on those forms being delivered to us in time so that we may include them.

Concerning your proposal, contained in your email message as of April 3rd, 2000, on the financial compensations of the rights' transfer, I would like to be clear in order to avoid any possible misunderstanding in the future.

Optiva will not consider additional payments for patents to which Optiva already has rights.

Those patent applications were created for Optiva. Optiva provided payment to its subcontractor, Quanta Invest, for the work performed and for the patents resulting from that work.

Quanta Invest provided payments to employees and consultants for the work performed, and received the work and the patent rights to the work in turn.

This in no way minimizes the work, or the scientific talent of those, including yourself, who performed the study, which resulted in the patents. On the contrary, I appreciate and admire the level of scientific achievement. Our position is a business matter, and it is merely that after payment in full, no further compensation is due.

We highly appreciate your understanding and hope that you would positively consider signing Declaration and Assignment for the above-mentioned US Patent application.

Sincerely yours,

Carl Cobb
President
